Three Killed When Automobiles Collide

Hill North of Canyon Is Scene of Wreck Christmas Eve Involving 11 Persons

Canyon citizens were horrified Wednesday afternoon of last week when ambulances raced to and from the hospital bringing victims of the three-car accident north of town on the Amarillo highway where three persons were killed and five others were injured.

Mr. and Mrs. Arthur Faubion of Springfield, Mo., were going south down the long hill and meeting a carload of Dimmitt and Merkel people. According to Faubion, a car occupied by Harlan Sparks, Rolland Saxton, and Roy Gant of Melrose, N. M., zipped down the hill, passed the Faubion car and crashed head-on into the Wheeler machine, which reared around knocking the Faubion car off the highway.

The dead are J. W. Wheeler, Sr. of Merkel, J. W. Wheeler, Jr., 40, of Merkel, and Rolland Saxton, 18, of Melrose, N. M.

Injured were Mrs. J. W. Wheeler, Jr., and her daughter, Johnnie, of Merkel, Mr. and Mrs. R. A. McCollum of Dimmitt; Sparks and Gant of Melrose.

Mr. McCollum is superintendent of the Dimmitt Public Schools. Mrs. McCollum is a sister of J. W. Wheeler, Jr.

All of the victims of the accident, except Mrs. Wheeler and Mrs. McCollum have been released from the local hospital. Their condition is reported improved.

The Wheelers and McCollums were in a Buick en route to Amarillo. Their car was filled with gay Christmas packages.

The three New Mexico men had been to Borger looking for work and were returning home.

Red Cross Drive Starts Monday

Goal of $1,400 in One Day Is Set: Workers in Every Part of County

The Red Cross campaign will start in Randall county Monday morning of next week.

A meeting of all workers will be held Sunday afternoon at 2 o'clock at the City Hall. At that time a list of all citizens of the county will be divided among the workers, and an estimate will be made as to how much each family should give to the Red Cross during the coming year. Each person will then know how much will be expected for 1942. It is planned to collect 20% of the total estimate for 1942 at this time. A call has been made on the local chapter for $1,400. It is expected that other calls will be made at frequent intervals, based upon the experience of World War I.

T. V. Reeves, chairman of the campaign, urges that every family make their donations as quickly as possible. It is hoped that $1,400 will be raised on Monday. National Headquarters has wired that urgent needs exist for immediate funds. Since Pearl Harbor, the demands on the Red Cross have greatly increased. The Red Cross not only needs funds for work among the sick and wounded soldiers, but must come to the aid of the distressed families.

Mr. Reeves has contacted all community chairmen this week, and reports that all communities are ready for immediate action. Every citizen of the county will be impressed with his patriotic duty in paying his part of the Red Cross.

About 40 workers will call upon the citizens of Canyon starting Monday morning.

Several citizens have asked to pay their part of the fund immediately and they may do so by calling at the City Hall.

Reclassifying All Men By Orders of Selective Service

Randall county's Selective Service Board met Monday and reclassified all men who had reached 28 years of age. Under a change in the law, all these men were made available for military service and local boards were advised to give all of them physical examinations.

Physical examinations for 50 men will be given immediately by local physicians. Of this number 29 will be sent to Lubbock on January 13 where they will undergo physical examinations by the army officers. It is not indicated when men will be inducted into service, but it is expected they will be called about the first of February.

Orders have not been issued for reclassifying other men who were deferred, but according to press reports from Washington it is indicated that the questionnaires will be reopened and the question of dependency carefully examined.

No information has been given regarding the new registration. It is likely that men of different age groups will be registered on separate days.

M. F. Bewleys Hear From Their Son

Mr. and Mrs. M. F. Bewley heard from their son, Billie, Monday for the first time since December 7, when war was started in the Pacific.

Billie was stationed on the ship Oklahoma, which was sunk during the Japs first attack.

Billie's wife, who lives in San Francisco, Calif., had received a letter from him and wired Mrs. Bewley that he is "o. k."

A Canyon boy, Mr. Bewley was graduated from Canyon High School in 1938 and was employed at Thompson's here before joining the Marines.

Sewing Room to Be Closed Order WPA Officials

The WPA sewing room will close Monday, according to instructions from the district office in Amarillo.

The sewing room project is to "close on account of reduced employment quota available for this district," was the instructions received Tuesday by Judge A. H. Hunt.

When closed in the fall, many business men protested the move as it threw out of employment many widow women who had families to support. When re-opened, WPA officials stated that it was only for a limited time.

Planning Committee Will Meet Friday

The Agricultural Planning Committee of Randall county will meet tomorrow in an all day session to discuss several matters affecting farmers of 1942.

The afternoon session will be devoted to a conference with the Commissioners Court and other interested groups on the question of fire prevention throughout the county.

District Court Winter Session To Open Monday

The winter term of district court will open next Monday. Judge E. C. Nelson will empanel the grand jury at 10 o'clock and instruct them as to their work of investigation. District Attorney Robt. E. Underwood will direct the work of the grand jury.

Owing to the small amount of business next week, Judge Nelson cancelled the call for petit jurors for the first week of court.

There are no sensational cases pending for this term of court, states Clerk A. B. Holt.

Plans Made For 12-Week Session West Texas State Next Summer

Defense Will Be Theme of Summer Session: Hill On Trip to Washington

In order to achieve a minimum war effort and to relieve shortages of personnel in several professions, West Texas State College will extend its next summer session to twelve weeks.

One of these scarcities is that of teachers. Many schools will face the necessity of closing next year unless the shortage can be eliminated. This problem of school authorities deepens month by month as men leave the profession and some women of the schools go into business and industrial positions.

The summer session will be of two six-week terms, the first beginning June 3 and lasting through July 11 and the second starting July 13 and ending with commencement on August 22. A normal load will be two subjects of three semester hours credit in each term, but there will be some flexibility based on individual needs, Dean R. P. Jarrett and Registrar D. A. Shirley, associate dean, have announced. No classes will meet on Saturdays.

Specialized war aid courses in safety, first aid, welding, auto mechanics, radio, and similar subjects will be continued in the summer term. Other subjects and features to be added include audio-visual education, world affairs, photography, commercial art and arts and crafts, conservation, business courses and the summer band school.

The spring commencement will be moved up to the evening of May 31 in order that the summer session may open June 3. The baccalaureate service will be held at 11 a. m., May 31.

Additional announcements on war aid work will be made following state and national conferences of educators.

Summer session plans were made yesterday at a meeting of Dr. J. A. Hill and the executive board of the College. Dean Jarrett will proceed immediately to compile the summer catalog.

Dr. Hill left yesterday afternoon by train for a conference of educators at Baltimore. He will visit Washington, D. C. on college business while away. His findings will have a bearing on the college's war aid program.

Fire Prevention Meeting Will Be Held Friday p. m.

A joint meeting of the County Planning Committee, Commissioners Court and ranchmen of the county will be held in the District Court room Friday afternoon at 2 o'clock for the purpose of perfecting a fire prevention program for the county.

A meeting was recently held in Amarillo of ranchmen at which time it was proposed that every Panhandle county take steps to control prairie fires. Ranges have not been so good in many years, and prairie fires now would be very disastrous to stock raising and the defense program.

Other counties are puting out posters warning against fire. Randall county will likely take such steps at the meeting tomorrow.

All citizens interested are asked to attend this meeting.

Six Hurt in Car Crash Christmas Morning at Happy

Six persons were brought to the local hospital early Thursday morning following a head-on crash just north of Happy.

W. C. Shelton of Lubbock, who was most seriously injured, is still in the hospital here and continues unconscious.

Others injured were Mrs. Shelton, Mr. and Mrs. Joe Lange, Mary and Melda Lang of Happy.

According to highway patrolmen, the 1936 Ford pick-up, driven by Mr. Lang, and the Shelton car crashed head-on on a curve about 200 feet south of the Randall-Swisher county line.

The Ford coupe driven by Mr. Shelton was reported to have turned over four times and to have been completely demolished. The pick-up truck was also badly damaged.

Scrap Iron Needed National Defense Should Be Sold

Never before has our country needed scrap iron and steel as badly as right now.

It is needed to combine with pig iron in the steel furnaces.

If we sell our scrap iron now we will be making a definite contribution to National Defense as well as help to prevent too drastic a curtailment on new farm machinery.

There will perhaps be plenty of scrap iron after the war is over. Let's sell it now while the price is good and it is so badly needed.

Prices are not sky high because the Government has set ceilings on prices.

Let's clean up all the scrap iron and steel that will not be needed in repair work here at home and help the looks of our farms as well as helping our chances of winning the war.

W. H. Upchurch, County Agent.

Red Cross Sewing Room To Organize Workers Monday

The Red Cross sewing room will open next Monday afternoon at 2 o'clock.

Mrs. George Melton, director of the sewing room, states that materials have been received for sewing, but that thread for knitting will not be here for some time. She has ordered thread, but Red Cross headquarters states that the demand for thread has greatly exceeded the supply on hand. The thread will be shipped to the local chapter as quickly as possible.

At the present time garments will be made for hospital units. Pajamas and other garments used in hospitals are greatly needed by the Red Cross, according to information sent to Mrs. Melton.

Girls who will work in the Junior Red Cross are invited to join in the work of the sewing room.

At the present time there are 36 chairs and six sewing machines in the Red Cross room. Other sewing machines will be needed as soon as the work is organized. Mrs. Melton will call for machines which any citizen may donate to the use of the sewing room.

Win Four Games at Oklahoma City

Brookfield Is Named the Most Valuable Player: Start Road Trip North

The West Texas State Buffaloes won the All-College Oklahoma City tournament Tuesday night by defeating the Oklahoma Aggies. The Aggies have won the tournament title three times in six years.

The score was 37 to 31, being the smallest that the Buffs ran up during the four days of play. Brookfield was high scorer with 15 points. The Buffs led throughout this game. At the half the score was 18-7 in favor of the Buffs.

Brookfield was presented the trophy as the "Most Valuable Man" of the tournament. Brookfield was named member of the All-American team last year, and is a strong contender for the honor again this year.

Brookfield, Halbert and Frank Stockman were named members of the All-Tournament Star team.

To win a place in the finals at Oklahoma City, the Buffs whipped three other strong teams.

In the first game Friday the Buffs set a new high tournament record in defeating East Central Oklahoma 70-37. The highest previous score for six years was 66 points.

The Buffs defeated the strong Arkansas University team Saturnight, 54-41. The Porkers attempted to rough the Buffs in the final minutes and Captain Frank Stockman was knocked out with a badly bruised elbow. It was first feared that a bone was broken.

The Buffs had their biggest scare Monday night when the Pittsburg, Kansas, team was narrowly defeated 57-55. The Kansas boys led the Buffs at frequent intervals during the game, and it was only during the final 40 seconds that the Buffs finally pulled ahead and won the game.

The team returned home yesterday, and will get ready for the trip to Peoria, Ill., where the Buffs meet Bradley Tech next Tuesday night. On the trip the Buffs play Evansville College Jan. 8; DePaul University, Jan. 10.

Farmers Must Get Repairs For Farm Machinery Now

Randall county farmers are being advised by a special letter from the office of County Agent W. H. Upchurch to repair their machinery now for 1942 work.

Under the priority administration, dealers cannot furnish repairs unless farmers place their orders at once. Farmers who come up to harvest time without having made necessary repairs will have no one to blame but themselves if they are unable to secure repairs later in the year.

Here are the necessary steps for all farmers to follow:

(1) Take whatever time is necessary during the first 10 days of January and make a list of every repair you will need to operate your farm through September 1942.

(2) See your dealer and make arrangements for ordering parts not later than January 15.

(3) Do your overhauling during January and February so that any unexpected repair parts can still be ordered in time.

If we do not do this we cannot blame the dealer for failure to supply parts later after it is too late to get priorities set up for the manufacturer.

We hope every farmer in Randall county will realize the seriousness of this and do everything possible to get ALL farm machinery in repair during January and February.

The County Agent will be glad to discuss any phase of this program with you at any time.

"I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation indivisible, with liberty and justice for all."

THE LITTLE GUY

What distinguishes this country from the other great nations of the world? There are many possible answers to that question. And here's one of the best: "The United States is the country where the little guy is boss—where the little guy can go as far as his energies and abilities allow—where the little guy doesn't have to bow and scrape to anyone."

Little guys made this country. They came here from everywhere to establish freedom and escape tyranny. They landed in a wilderness. They were often cold and hungry. They seldom became rich. But they kept the faith. They built the homes and cleared the land and raised the children. They fought the wars of the past, just as they are fighting this war. The little guys were proud and strong and confident of the future, and the great land in which we live is their gift to us, the little guys of the present.

Little guys built the industries of this country. They saved a few dollars and put them into a store or a bank or a factory of some kind. They took chances. Much of the time they lost, but that didn't dismay them. They saved a few more dollars and took new chances. They didn't laugh when some visionary came along with an idea the wise-acres said was obviously insane—the telephone, for instance, or the automobile, or a plan for lighting homes with electricity. There might be something in it, they thought, and they played the long shot. For the visionaries with the ideas were the same kind of people—little guys trying to get ahead, little guys trying to build and create. And some of them went from shacks to mansions in a year or two, and a year or two later were back in the shacks starting again. They always started again. It was in their blood, their bone, their character. The little guys didn't give up.

All of this country is a monument to the little guy. All of our industries, our farms, our homes, our resources—the little guys did the work. They went into the oil fields and brought out the black gold. They dug in the earth and gave us our coal and metals. A few became famous, but the millions remained unknown. They worked and died in obscurity, but this country is an everlasting monument to their deathless spirit which lives on.

That is the ideal we Americans must always keep in mind—America must be a place where the little guy is king. Where enterprise is the little guy's kind of enterprise—he can go into any business he wants, invest his savings in whatever he wants, and lick the competitors to a frazzle if he is able to. The government belongs to him—he doesn't belong to the government. The little guy made America, and today he is perpetuating America. And tomorrow he must be the symbol of America, too.

Monday will be your day to start making contributions to the Red Cross. The Randall County Red Cross Chapter is going to ask every citizen of Randall county to do his part. The Red Cross has a tremendous job during wartime. American soldiers must be cared for when they return from battle. The families of the dead and wounded soldiers must have assistance. Clothing must be provided for the unfortunate civilians whose homes are wrecked by enemy bombs. The Red Cross undertakes to do this, but it can do nothing without your dollars. This is a job for each and every American citizen. The boys who are facing bullets in order that those of us who are at home may be spared are not letting us down; we cannot let these boys down by failing to do our part for the Red Cross.

When you buy Defense Bonds you are hedging against the depression which is certain to follow this war. If every citizen would systematically buy bonds and keep them until maturity ten years hence, there would be no need for old age assistance or other government benefits, excepting to those who are physically disabled. The interest return is liberal for those who will hold these bonds until maturity. "Buy a Bond Clubs" are being formed in every county of the nation. The members are pledged to buy bonds every month and to hold them for maturity. In this manner the government has the money for the war, and 10 years hence the buyers will be repaid with a good rate of interest. Do your part by investing your savings in Uncle Sam's bonds.

The Japs continue to carry out dastardly tactics even more brutal than those adopted by Hitler. Manila was bombed after full notice had been given that all defense machines and supplies had been withdrawn. The Japs swooped down, the defenseless natives and American citizens being easy targets for both bombs and machine guns. The Japs violated all rules of war in attacking the defenseless city. Even Hitler played the war game fair to the extent of honoring the rights of Paris in becoming an open city after the French guaranteed that all defense materials had been withdrawn. The United States is dealing with a heartless people who have no other thought than winning at any price.

President Roosevelt is the most important man in the world today as the war is directed from Washt ington. You will recall a few weeks ago how the Japs attempted to lure him out to sea in the Pacific for a "peace conference," as he had previously held in the Atlantic with Churchill. You can now speculate why the Japs were so anxious to have the President leave the continent. His ship might have been a convenient target for a Jap submarine; or the Japs might have taken the President prisoner as a hostage of war. Since Pearl Harbor and the bombing of Manila nothing is too horrible to speculate as to the motives of the Japs.

One very noticeable difference between the Democracies and the Axis is the manner in which manpower is being preserved. The Axis powers are wasteful of their soldiers and materials, hoping for a quick knockout. The Allies, including America, are conserving manpower and materials. The Japs are said to be losing 10 men to one American lost in the Philippines. That is the only way they can win; but in the end it means their defeat. A dictator is thinking only of the glory of quick victory; a Democracy thinks of the homes which suffer when one man is sacrificed in the defense of our nation.

Churchill brought 80 experts with him to map the plans for the war. Washington is now the center of military and financial operations of World War II. The English speaking peoples are fighting for supremacy. We have claimed for so long that we are superior, and now must fight hard to prove it. Luckily we have on our side Russia and China, with the greatest man-power in the world; luckily we have been able to hold together the entire South American continent.

Americans have been shocked because of the Jap success in the early stages of the war. Few people realize to what extent Japan was prepared for this war, and how unprepared we were. Furthermore, few people realize just how far our troops have to travel and how many supplies are necessary to keep men on the battlefield. Unless all signs fail, we must prepare ourselves for even greater reverses before our navy and army start to win the battle of the Pacific. We must keep in mind the reverses which the English sustained before starting to win in Europe.

Those of us who have been hoping for a short war are doomed to disappointment. The Japs have taken advantage of the isolationist theory of this nation and have the jump on us in the Pacific. Hitler is on the run in Europe, but must be pushed back hundreds of miles before reaching Germany. Churchill would not have risked a trip to Washington had there been any expectation of a short war. The Allies are maping a long ranged program, which must in the end mean victory.

Tire rationing is the first national defense measure which hits most of our citizens. As a nation, we shall learn to walk a little more than we have in the past; not use our cars so extravagantly; and to take better care of our casings. We have been an exceedingly wasteful nation in the useless destruction of cars and equipment. The war will teach us to better protect our property.

Even Isolationist Wheeler is boiling mad and willing to fight to wipe out the dictators. It was predicted months ago that Wheeler was looking for a chance to swing away from his isolationist stand. The Japs probably saved Wheeler's political scalp.

Hitler is now the sole commander of the German armies. He has ousted trained military men who do not agree with him. The dictator must run the whole show if he is to continue as dictator.

1941 went out last night. Many things have happened to upset the world during the past year. The New Year holds nothing very promissing to the average citizen.

One 1942 resolution you can make and keep: Be a good American throughout the year; invest in Defense Bonds and help the Red Cross.

New Year Greetings

Once every year our thoughts turn from the details of business and the sordid affairs of every day life and center themselves on matters of a spiritual and sentimental nature.

It is right that they should. It is the time of mental inventory when we take stock of what we have done and what we have been and the many friends we have made during the last year.

It has often been said there is no sentiment in business, but this statement is not true, for this New Year's Season refutes it.

We have always felt that our customers and the people with whom we have business are as much our friends as the people we meet socially, and we have always made an earnest endeavor to promote such feeling in our business relations.

We feel that way toward you and therefore take this opportunity to express our best wishes to you in this New Year's Season.

May Joy be with you and Prosperity follow you.

MAY YOU HAVE A PROSPEROUS NEW YEAR

Museum Case for Hobbies Causes Much Interest

Discovery of unique and unusual things is commonplace at the Panhandle-Plains Museum here, but a current hobby display is attracting more than customary interest.

It is an exhibit of horn carvings, the work of Dan Super of Houston, a retired cattleman and business man. The collection was loaned to the museum by Roy Super of Amarillo, a son.

The elder Mr. Super has carved as a hobby since, as a boy, he whittled out a violin. In turning to bone carving, he originated methods which permitted him to turn out beautiful art objects, some of them of startling craftsmanship. Filgrees of broncs, cattle, deer, fox hunts, and nudes are skillfully done, the carvings have good form, movement, and are highly polished.

The horn objects on display includ a crafish, penguin, toothpick holder, handkerchief holder, shoehorn, walking canes, back scratcher, cigaret holder, watch charm, pen holder, a robin match holder, sparrow, blowing horns, and miniature animals such as a rabbit hawk, white crow, and black vulture.

Mr. Super is painstaking in details of his figures. At one time he gave a horn to the late Teddy Roosevelt, who later presented it to the Smithsonian Institution. A head of T. R. appears on one carving. Most of the carvings were made with a pocket knife.

Mr. and Mrs. John L. Hammond and girls spent Christmas day in Tulia visiting with relatives.

PRESBYTERIAN CHURCH

"If our desire to help our country in this time of its great need is more real than simple flag-waving, if it goes deeper than the lips, into the heart, then we cannot forget the most vital thing that our leaders have asked of us—Prayer. How could prayer become more real to each life than to share it with others in a worship service?" It is not a dogmatic statement, but a real truth that the sincere American, where it is possible, will begin the New Year in a service of worship next Sunday." The theme for the morning worship service in the Presbyterian Church Sunday will be "God Is Marching On." Miss Florence Clark will sing a solo at this service.

The Junior Choir, composed of the boys and girls of the church, will again be in the Choir at the evening service and will bring special music. The theme for the service will be "The Face of Jesus."

All Nature worships there!

'Yellow Aryans' Learned This One From Shakespeare

Popular with Japanese soldiers is this camouflage idea copied from "Macbeth." Soldiers camouflage cannon and machine guns with straw and branches. Cities of the "Yellow Aryans" are vulnerable to air attack because of flimsy construction and density of population.

Sgt. Porkey Is Now Making His Home Near City

Sgt. Porky of Company F, 142nd Infantry, Camp Bowie, does not want to fight the Japs. Therefore he received his discharge Friday night and was brought here to the farm home of Mr. and Mrs. I. H. Hollabaugh, parents of Pvt. Frank C. Hollabaught of Co. F.

Besides, Porky is a little light and too young to fight the Japs, unless he tackles the pigs belonging to the enemy. Porky is now 4 or 5 months old and weighs 80 pounds.

Sgt. Porky and another pig, Nervous Curk, were caught by men of Company F when they were on maneuvers in Louisiana. Mess Sgt. Matt H. Sims sent Nervous Curk to his dad at Spearman several weeks ago.

Porky wandered all over Camp Bowie, but he always returned to Company F, where he usually stayed near the kitchen in order to rob the garbage pail. He traveled over a large part of Louisiana, returned to Texas with the men, and was taken to Ft. Sill, Okla., when the Company was there to demonstrate army tactics.

Both of these pigs have become famous through Associated press stories and features on the radio.

Sgt. Porky was a pet of all the men in Company F, and he may be a little lonesome away from war preparations, but the Hollabaughs have assured him a good home. They add that he may even end up being made into sausages, or if he is sold on the market, he might get to return to one of those army Kitchens as pork chops.

Stuart H. Condron, chairman of the arrangements committee, announced Tuesday that Americanism would be the theme of next week's meeting.

Rev. C. C. Armstrong was introduced as a new member of the club. The new pastor was called upon to make the talk for the luncheon.

"Men need a steadying influence at all times, but in time of crisis, they need it worse," stated the pastor. In time of war tolerance is one of the things of greatest need. "We cannot afford the spirit of hate," stated the speaker. Every person who repeats the Lord's Prayer acknowledges the brotherhood of men.
